

Veterinary Healthcare Workshop

Learning Outcomes:

- Students will explore different career paths in the veterinary industry.
- Gain understanding of what it takes to be a Veterinary Assistant and what it's like to work in a veterinary practice.
- In the 3 part mini series students learn how to keep their pets healthy. They will understand the importance of preventative health care related to nutrition, dental care, skin and nail care.

Instructor Profile

Samantha is a Registered Veterinary Technician (RVT) with 17 years in small animal veterinary practice. She is passionate about preventative medicine, patient care and client communications. She loves to share her knowledge and experience. She is a Veterinary Health Care Assistant instructor faculty member at Vancouver Career College in the Veterinary Asst. Program. Samantha is excited to help students discover their new careers in veterinary medicine, while providing practical theory that can be used at home with their own pets.
