

Career in Health Care

Practical Nurse Workshop

Learning Outcomes:

Compare and contrast in the roles of 'hands on' health care workers: Unregulated care provider - care aid, home support worker

Licensed Practical Nurse (LPN) I will focus on the role of the LPN Registered Nurse (RN)

- Discuss skill sets required for Licensed Practical Nursing to work with clients/patients, families, and allied health care team members, in various settings
- Identify tools and strategies nurses bring and apply, during a typical workday – to maintain resiliency to work independently, in teams, and with interdisciplinary health care professionals (allied health).

Instructor Profile

Lorrin is a registered nurse with 35 years experience in various settings and specialties within the nursing profession. She has worked in nursing Ontario, BC, internationally in the USA and overseas in hospitals, clinics, home care settings. Currently Lorrin is a nursing instructor faculty member at Vancouver Community College in the Practical Nursing Program. Lorrin is passionate about supporting and empowering self and others, to educate, collaborate, and advocate for respectful, inclusive health care.

**RN BScN,
